

Product specification

Measurements interval

- Device takes hourly readings
- Platform runs algorithmic risk calculations on 4-hour data-sets

Device dimensions

- H 93.50mm / W 59.00 / D 23.00mm

Alert channels

- SMS
- Email
- Push-notification (via app)

Power supply

- Default power supply: in-built rechargeable battery (3.7V, 2A)
- Charge via USB-C port
- USB cable supplied (30cm standard, 2m optional)
- Charge-time: 4 hours
- Run-time: 30 days minimum (subject to humidity conditions)
- Energy consumption (per 24h): 0.24 Wh
- Energy consumption (per year): 88.0 Wh
- Energy cost (per year): Negligible (pence per year*)
- Optional power supply: mains (3.7V, 2A)

Communication protocols

- Default: Wifi
- Optional: LoRa

Digital platform access points

- iOS mobile app
- Android mobile app
- Web-browser

Installation requirements

- Wifi range
- Power source
- Device hung 2m above floor (ideal)
- Siting within property dependent on user requirements, building layout and conditions

[*based on Oct 2023 price cap - £0.27 p kWh]
